

Doeun Kwon

Bachelor of Science in Mathematics, 4th year
www.doeun.me 778-847-4012 dekwoon@gmail.com

Technical Skills

Programming Languages: Python, Swift, C++, Java, Javascript, HTML/CSS
Software: Xcode, GitHub, JIRA, Canva, Figma, Excel, MATLAB

Work Experience

- Software Engineering Intern, Later** May - Aug 2022
- Wrote software for Later's iOS app alongside five other developers
 - Implemented a specialized sign-up page for countries covered by GDPR
 - Brought back Later's key product, Linkin.bio, to the iOS app
- Business Development Intern, Highfly** May - Aug 2021
- Sourced overseas pharmaceutical ingredients and finished products
 - Proposed and initiated research for South Korea's CBD market
 - Specialized research on efficacy of American pawpaw and hemp seed oil

Technical Projects

- Bounce** Oct 2022 - Present
- Developing a schedule generating, "day randomizer", iOS app in Swift
 - Users provide a library of events with specified duration and day-time
 - An algorithm schedules these events based on their attributes
- Juggler** Nov - Dec 2021
- Wrote a cross-platform juggling game in Java for desktop
 - Ball objects with custom attributes can be created, saved, and loaded
 - GUI written in Java Swing and unit testing done with JUnit
- Hustle** Sep - Oct 2021
- Built a productivity, "time wallet", iOS app in Swift
 - Helps to budget time by tracking and displaying time spent/saved
 - Utilized Core Data to persist data of user progress for a week's duration

Education

- Bachelor of Science, Mathematics** Sep 2020 - Apr 2024
The University of British Columbia
- Transferred out, Nanotechnology Engineering Sep 2019 - Apr 2020
University of Waterloo

Relevant Courses

Basic Algorithms and Data Structures, Intermediate Algorithm Design and Analysis, Software Construction, Introduction to Discrete Mathematics, Applied Linear Algebra, Matrix Algebra, Elementary Differential Equations II, Calculus IV, Mathematical Proof, Elementary Statistics for Applications
